← → google.com/advanced_search

Google

Advanced Search

Find pages with...

all these words:	<input type="text" value="Oracle Analytics Cloud"/>	To do this in the search box:	Type the important words: <code>red colour red terrace</code>
this exact word or phrase:	<input type="text" value="oracle analytics server"/>		Put exact words in quotes: <code>"red terrace"</code>
any of these words:	<input type="text"/>		Type OR between all the words you want: <code>miniature OR standard</code>
none of these words:	<input type="text"/>		Put a minus sign just before words that you don't want: <code>-candy, -"Jack Russell"</code>
numbers ranging from:	<input type="text"/> to <input type="text"/>		Put two full stops between the numbers and add a unit of measurement: <code>10..30 kg, 1300..1500, 2010..2011</code>

Then narrow your results by...

language:	<input type="text" value="English"/>	Find pages in the language that you select.
region:	<input type="text" value="any region"/>	Find pages published in a particular region.
last update:	<input type="text" value="up to a year ago"/>	Find pages updated within the time that you specify.
site or domain:	<input type="text" value="docs.oracle.com"/>	Search one site (like <code>wikipedia.org</code>) or limit your results to a domain like <code>.edu</code> , <code>.org</code> or <code>.gov</code>
terms appearing:	<input type="text" value="anywhere in the page"/>	Search for terms in the whole page, page title or web address, or links to the page you're looking for.
SafeSearch:	<input type="text" value="Filter explicit results"/>	Test SafeSearch whether to filter sexually explicit content.
file type:	<input type="text" value="any format"/>	Find pages in the format that you prefer.
usage rights:	<input type="text" value="not filtered by license"/>	Find pages that you are free to use yourself.
